MOVEMENTS

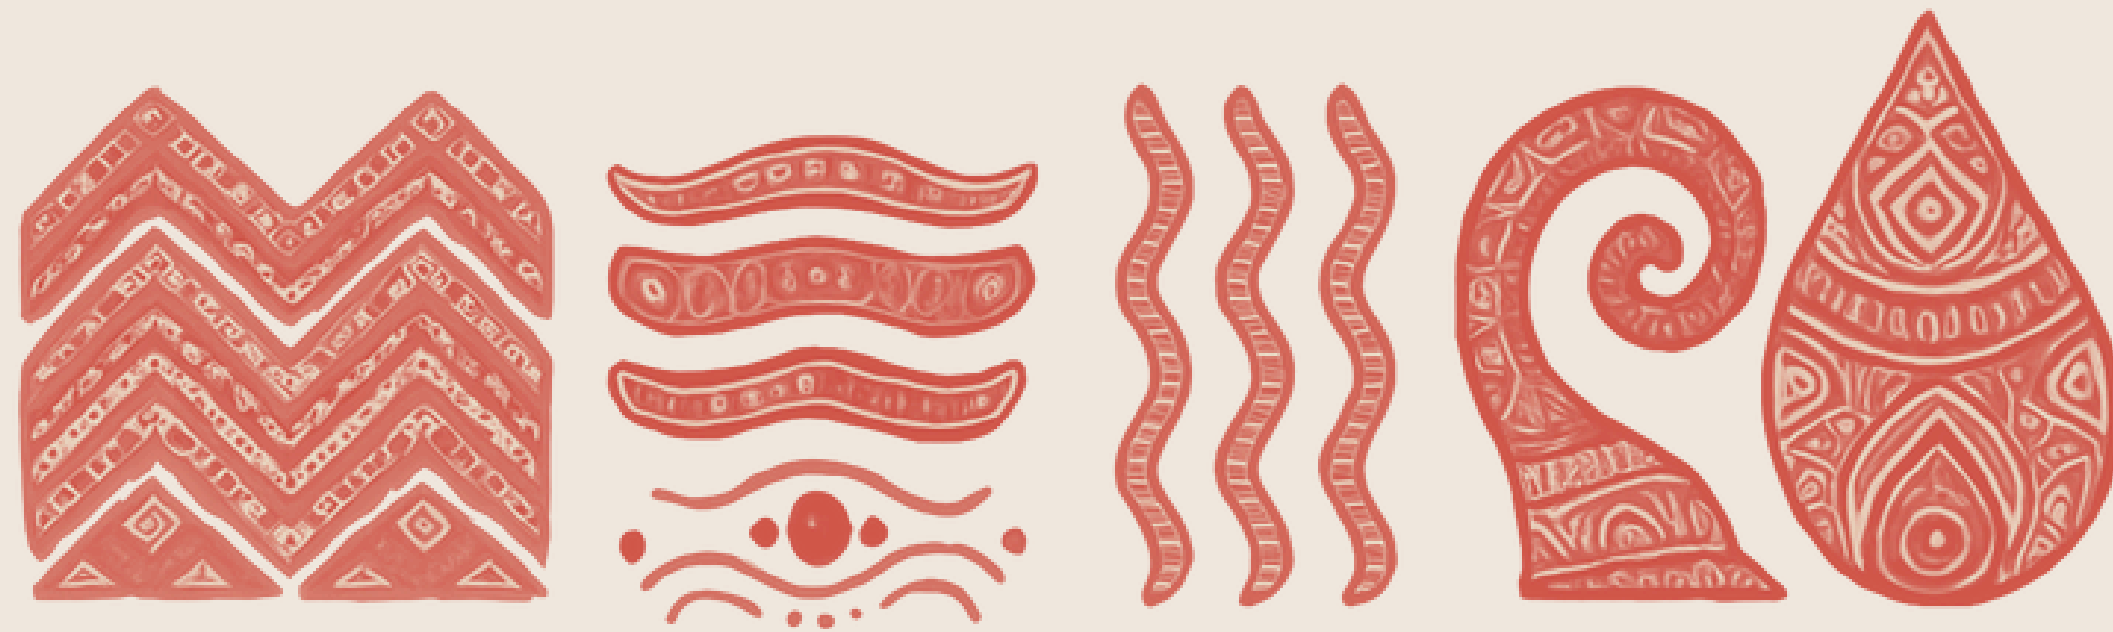

Exploring spiritual connection and embodied emotion through the sacred songs, rhythms, and dances of the Orishas.

THE ASHE OF THE ORISHAS

It's not a dance workshop,
but it's about movement.
Not a singing class, but
about vocal expression.
Not a percussion workshop,
yet we explore rhythm
through the body.
Not a breathing or
meditation session, but it
includes meditative
moments and breath
awareness

We become like a tribe that sings and moves together in one heartbeat, honoring the forces of nature. The intention is to awaken energy through inner and outer movement — blending Yoruba spirituality with body, voice, and sound, integrating electronic music and organic instruments.

Each stage unfolds as a “movement,” inspired by the elements of nature and the Orishas as archetypal forces that inhabit and activate our inner world.

In Yoruba tradition, the Orishas embody natural energies and cosmic principles, each expressed through unique songs, rhythms, and dances that connect spirit and movement.
